# KALEIDOSCOPE

The native forests of Australia are being replaced by species imported from other sections of the world.

A large part of the gold produced in the United States comes from by-products in copper and lead mines. The custom of decorating soldiers' graves once a year was first started on the battlefield of Gettysburg, Pa. After three years of discussion, the American daisy was adopted by the American Legion as its official flower.

Red Cross engineers recently completed drecting the building of 300 miles of good highway in northern China. A Parisian has invented a small three-blade electric fan to replace the hand-fan used by women at the theatre. Spain now has its banknotes printed in

England, because the notes printed at home have been so largely counterfeited. The United States postoffice user 00,000 miles of twine every year, enough to girdle the earth thirty times. Of the 22,000 Grand Army veterans to the original membership of the posts New York city, only \$26 are now living.

The American Legion of Winnetaka, the exclusive suburb of Chicago, has formed a volunteer police force of seven-The establishment of a tuberculosis sanatorium for its members is projected by the Brotherhood of Railway Train-

Most singers don't like violets, for the perfume from the little flower is said by some to cause huskiness and sore throats The fourfeenth century armor was se heavy that many young soldiers were deformed or permanently disabled by us
